HIGHLY IMPORTANT DISCOVERY.

FOUSEL'S PABULUM VITÆ

Fousel's Pabulum Vitæ
Has now gained its position before the public as *THE ONLY REMEDY* yet discovered for the speedy relief and permanent cure of
CONSUMPTION,
Coughs, Colds, Hoarseness, Bronchitis, and all other Pulmonary Complaints.

The discovery of an eminent French Physician after many years of study and observation, it continually meets with the most ASTONISHING SUCCESS in the treatment of the above complaints.

Its unabated popularity, numerous certificates of remarkable cures, the recommendation of some of our most eminent physicians, and the analysis of Dr. A. A. Hayes, the State Assayer, all give convincing proofs of

THE UNRIVALLED VIRTUES
And Unqualified Superiority

of this preparation to any other remedy now extant, and are constantly contributing to give it a wider and more enviable reputation. From its volatile nature, it affords vapors freely, and consequently is DIRECT IN ITS ACTION UPON THE LUNGS AND AIR PASSAGES.

The discredit which has been thrown upon all preparations not prescribed by regular physicians, by reason of the coalescence with which worthless and injurious compounds have been imposed upon the public, will tend to deter many from availing themselves of the benefits of this preparation; the agent, however, assures the public in all sincerity, that this medicine is not only *perfectly safe, and free from all other deleterious ingredients*, but guaranties that it will effect all that he represents, not having heard of a single case where it has failed to give satisfaction.

It is warranted to cure
Consumption by using One to Six Bottles;
Bronchitis by using One to Three Bottles;
Coughs by using less than One Bottle;
Colds by using It Two to six Days;
Bleeding of the Lungs by using less than One Bottle;
Hoarseness by using less than One Bottle;
Soreness of the Chest, by using less that One Bottle;

Price $3 per bottle, accompanied by a Treatise. For sale by
F. J. LAFORME, Sole Agent,
No. 6 Milk Street,
Boston, Mass.

And by all respectable Druggists and Apothecaries in the United States and British Provinces. nov25'57 1ly jb

PERUVIAN SYRUP,
OR
Protected Solution of Protoxide of Iron,
HAVING successfully passed the ordeal to which new discoveries in the Materia Medica are subjected, must now be received as an established Medicine. Its efficacy in curing
DYSPEPSIA,
Affections of the Liver, Dropsy, Neuralgia, Bronchitis, and Consumptive Tendencies, Disordered State of the Blood, Boils, Scurvy, and the Prostrating Effects of Lead or Mercury, General Debility, and all Diseases requiring a Tonic or Alterative Medicine, is now BEYOND QUESTION.

The proofs of its efficacy are so numerous, so well authenticated, and of such peculiar character, that sufferers cannot reasonably hesitate to receive the proffered aid.

The PERUVIAN SYRUP does not profess to be a cure-all, but its range is extensive, because many diseases, apparently unlike, are intimately related, and, proceeding from one cause, may be cured by one remedy.

The class of diseases for which the Syrup provides a cure is precisely that which has so often baffled the highest order of medical skill. The facts are tangible, the witnesses are accessible, and the safety and efficacy of the Syrup incontrovertible.

Those who may wish for an opinion from disinterested persons respecting the character of the Syrup, cannot fail to be satisfied with the following, among numerous testimonials in the hands of the Agents. The signatures are those of gentlemen well known in the community of Boston, and of the highest respectability.

CARD.

The undersigned, having experienced the beneficial effects of the "Peruvian Syrup," do not hesitate to recommend it to the attention of the public.

From our own experience, as well as from the testimony of others, whose intelligence and integrity are altogether unquestionable, we have no doubt of its efficacy in cases of Incipient Diseases of the Lungs and Bronchial Passages, Dyspepsia, Liver Complaint, Dropsy, Neuralgia, etc. Indeed, its effects would be incredible, but from the high character of those who have witnessed them, and have volunteered their testimony, as we do ours, to its restorative power.

Rev. John Pierpont,	Rev. Thomas Whittemore,
Thomas A. Dexter,	Thomas C. Amory,
S. H. Kendall, M. D.,	Peter Harvey,
Samuel May,	James C. Dunn.

NOTICE.

It is well known that the medicinal effects of Protoxide of Iron is lost by even a brief exposure to air, and that to maintain a solution of Protoxide of Iron, without further oxidation, has been deemed impossible.

In the Peruvian Syrup, this desirable point is obtained by combination in a way before unknown; and this solution may replace all the proto-carbonates, citrates and tartarates of the Materia Medica. A. A. HAYES, M.D., Assayer of the State of Mass., Boston, G. B. A.

SHAKESPEARE'S
COMPLETE WORKS.
NEW AND ELEGANT EDITION!
EDITED BY RICHARD GRANT WHITE.
To be Published by Subscription
IN TWELVE VOLS. POST, 8 vo.

The labors of Mr. White in the wide field of Shakespearian research and criticism, are everywhere known and appreciated by the students and lovers of the Great Dramatist. The recent publication of his Shakespeare's Scholar, was hailed with delight and satisfaction on both sides of the Atlantic, and secured for him the gratitude of every intelligent reader of Shakespeare, who desired to see the text in its original purity, relieved of the mass of superfluous annotations, explanations, and attempted improvements, by which it had been encumbered, if not obscured, by most of the previous commentators.

This work may be regarded as the precursor of the forthcoming edition of Shakespeare's Complete Works, and as indicating in some degree, its peculiarities, the chief of which are as follows:—

I. Adhesion to the text of the authentic folio of 1623, excepting where that is manifestly corrupt or defective. II. The restoration of many passages from the original text, which the editor shows to have been carelessly assumed to be corrupt in preceding modern editions. III. The successful emendation of many passages which are undeniably corrupt, and which have baffled the efforts of previous editors and commentators. IV. The discovery and correction of many corruptions of the text, which have hitherto been undetected. V. A "frugal selection from the labors of all the commentators." VI. The careful preservation of the rythm of Shakespeare's prose, as well as verse, according to the contractions in use at his time, or peculiar to him, as they are given in the old editions, though almost universally neglected in those of modern date. VII. The examination, and as far as possible, the determination, of the old modes of pronunciation, which in numberless instances affect the rythm, and in many the sense of the text. VIII. The crediting of every emendation, explanation, or illustrative quotation, to the editor or commentator who first brought it forward—thus succinctly giving the reader the history of every disputed passage, and so of the vicissitudes of the text. IX. The separation of the text and notes.

This edition will be accompanied by a reduced fac-simile of the title page of the folio of 1623, by two portraits (exclusive of that upon the title page of the old folio,) one of which has never been published in this country; and by views in Stratford on Avon, some of which have been taken specially to illustrate the Memoir of the Poet—which, with an Essay upon his Genius, a compact but comprehensive History of the Text, and an account of the Rise and Progress of the English Drama, will appear in the first volume.

The work will be published by subscription, in twelve volumes, post 8vo, and will be printed on new and elegant type, and very superior paper.

Volumes II, III, IV, V, containing the Comedies, will be ready in a few weeks; the Histories in the coming Autumn, and the Tragedies with volume I, containing the Poems and the editorial Essays, in the course of the following spring.

Price $1,25 per volume, bound in cloth, payable on delivery.

A few copies of the work will be published with India proof impressions of the portraits and the few wood cuts, at $1,50 per volume.

☞ Subscriptions will now be received.

BANCROFT'S HISTORY.
NEW VOLUME.
THE AMERICAN REVOLUTION.
Just Published:
THE
History of the United States,
VOLUME VII.
Bound also as Volume I of the American Revolution.
WITH TITLE PAGE TO CORRESPOND.
BY GEORGE BANCROFT.
Octavo. Uniform with the previous volumes.

This is the first of four volumes which will embrace the period of the American Revolution, from the Blockade of Boston to the Treaty of Peace, at Paris, in 1782, and it contains—in a great degree from manuscript and unpublished sources—the History of the nation during the first portion of this eventful period, including the Blockade of Boston Harbor, the general organization of the colony, the alteration of the Charter of Massachusetts, the zealous union of the people of Massachusetts, the spirit of the South, the Congress of 1774, the progress of measures in England, France and elsewhere, the Battles of Lexington and Concord, the Siege of Boston, the Congress of 1775, the choice of Washington as Commander-in-Chief, the Battle of Bunker Hill, etc., etc.

The first volume is now ready, and the others will follow as soon as they can be prepared for the press.

The World,	3 vols.	Index,	1 vol.
The Connoisseur,	2 vols.		

Each work is also sold separately at 75 cts per volume.

"The want of a neat and uniform edition of these Essays, the productions of the best writers of the English Tongue, has long been felt, and the present issue is intended to supply the deficiency.

The volumes are of convenient size, handsomely printed from the last English edition, and the price is such as to recommend them to the favor of the public, and especially of those who are engaged in making selections for schools and college libraries.

"These works, the flower of the best English literature for a century, merit a place in every library. They have borne a large office in the culture of mind and style for past generations, and we can wish for our elders now upon the stage, and we can wish for those entering active or literary life, access to no purer, or more copious, or more stimulating fountains of thought, sentiment or motive, than are here."—*N. Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble and expense of a visit to Washington.

He begs leave to refer those unacquainted with him to the following testimonials:—

From the Hon. Charles Mason, Commissioner of Patents.
U. S. PATENT OFFICE, Feb. 23, 1855.

I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been engaged as Solicitor, and has been in that capacity in constant correspondence and intercourse with the Office; he has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the office, a close attention to the interests of his clients, and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with this office with whom I am acquainted.
CHARLES MASON, Commissioner.

From the Examiners of the Patent Office.

The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, late a principal Examiner in this office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

HENRY B. RENWICK, L. D. GALE, S. H. LANE,	Principal Examiners.
F. SOUTHWORTH SMITH, T. R. PEALE, THOS. T. EVERETT, WM. C. LANGDON,	Assistant Examiners.

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.
WM. P. N. FITZGERALD,
Late Principal Examiner of Patents.

THE CRYSTAL OIL LAMP,
For Burning the Crystal Oil,
Combining Economy and Safety!
PATENT RIGHTS,
FOR STATES & COUNTIES FOR SALE!

This important invention for producing the *cheapest light* in the world, is now perfected and offered to the public. Numberless other attempts have been made to produce a cheap light, but were attended with such inherent objections as to destroy their utility and adoption. But the Crystal Oil Lamp, while it is the *cheapest*, is both safe and agreeable in every position, making a *clear, white and brilliant flame*, entirely free from *smoke or odor!* There is no *danger from explosion*, but is *perfectly safe* under all circumstances. The oil can be used in any place without fear of soiling the nicest garments. The lamps are *simply* arranged and perfectly controllable by the children and domestics, and so constructed that the light can be varied in a moment *from that of one* to eighteen or twenty ordinary lamps. While it is free from the disagreeable smell arising from the Kerosene, and the danger attending the use of burning fluid, it is found upon scientific comparison to produce

As much LIGHT for ONE CENT as Kerosene will for Three Cents, or Burning Fluid will for Six Cents.

Thus saving five-sixths of the entire amount now expended, or the price of the lamp in about a month. They are adapted to all situations, making the cheapest and most desirable light for every place—the largest halls or churches as well as private dwellings. The patent on this lamp for the different States and Counties throughout the Union, with the exclusive sale of the Crystal Oil, is now offered to the public, presenting a rare opportunity for merchants to secure for themselves the monopoly of a trade entirely free from opposition. Facilities are completed for the manufacture of the lamps in such quantities that they will be furnished to the purchasers of rights in any style, at such a cost as will yield an almost incredulous profit. These rights will be closed off immediately, and the lamps and oil delivered as soon as desired. As no lamps or oil will be sold to any but purchasers of rights, all letters making the request will not be noticed. Communications addressed to the "Crystal Oil Lamp Co.," No. 5, Merchants Row, will be promptly attended to.

A Rush for New Expenditures—Democracy Determined to Spend the Money.

Advantage is taken of the present flurry about British outrages upon American vessels to attempt a great increase of our Navy at the expense of eight or ten millions of dollars for the benefit of contractors and of the administration and party into whose hands the patronage will fall The Mormon war being nipped in the bud some other method of spending the money is anxiously desired The Senate Committee on Naval Affairs has reported a bill for the construction of six a om sloops of war and the House Naval Committee will report one for the construction of ten steam gunboats, which the Committee on Foreign relations will probably recommend to be increased to thirty So says the New York Herald of Tuesday

Now we believe all this vast expense to be unnecessary and have confidence that Congress will consider it so If Great Britain is willing to risk a war with us in this matter of the right of search the mere addition of a few sloops of war and a dozen or two of gun-boats to our navy will not prevent her from doing it—and if she is not disposed to fight us, the proper apology and reparation will be made for the misconduct of her officers—and will be made just as quick without the gun boats as with them Nobody really anticipates war with England upon this question If the outrages have been committed in carrying out any instructions to naval commanders those instructions doubtless emanated from the old Palmerston ministry and the abuse will be promptly disavowed by the present government.

But it is a very pertinent question, to ask in the present juncture "Is the Navy which we now have (and which costs us so much every year) good for nothing?" The New York Tribune asks it forcibly as follows

We have a Navy for which we have been paying over ten millions per annum for twenty years past and are this year paying over thirteen millions to say nothing of the cost of Ocean Mail service But the moment there is the shadow of a use for a Naval force, we are spurred to rush into extraordinary expenditures for the construction of new steam sloops of war and steam gunboats Is not this a virtual confession that our regular Navy is good for nothing? If thirteen millions per annum spent on it does not provide a force competent to deal with this paltry business of the overhauling by British cruisers intent on breaking up the Slave trade of some of our merchant vessels off the coasts and in the ports of Cuba would it not be advisable to abolish the Navy and build or buy vessels for naval service when we want them?

The Democratic Attack upon our Fishing Interests.

The Albany Journal has the following comments upon THE DEMOCRATIC MEASURE OF ABOLISHING THE FISHING BOUNTIES

It will be good news for the British Fishermen that Mr Clay and other Southern Senators have succeeded in passing a Bill to raise the price of Codfish thereby decreasing the demand for them and discouraging the Yankees from going after them THE PROVINCES CAN NOW RECOVER THEIR LOST MONOPOLY OF THE FISHERIES This Act is but one of many specimens of that intense Sectionalism which will even legislate for the benefit of Foreigners If, by so doing, a blow can be struck at Northern Industry and Enterprise

Written for the Whig and Courier

Biographical Notice of Hon. Ephraim Goodale.

The Whig and Courier of the 25th instant announced the death of Hon Ephraim Goodale

It occurred to me that although this venerable man had passed away from the midst of us, yet the memory of his worth to the world, and especially to the people of Penobscot County, where he lived, ought not to be lost, or forgotten

Esquire Goodale, as he was commonly called was bred a stationer and bookbinder, living at Worcester Mass, in his early days—Having a strong propensity for extensive knowledge, he read everything that he could readily lay hold of This being at the period of the French revolution, the principles of Infidelity constituted a large portion of the literature of the times and were embraced by Mr Goodale But even then, his sense of duty to society enabled him to maintain a good moral character

When he had attained the age of 26 or 27 years, his taste inclined him to quit the trade of bookbinding &c, and to adopt agriculture for the future business of his life

Having found a swell of good land near the S E corner of Orrington, he purchased two or three hundred acres of it, and there in the wilderness, commenced farming He designed that the production of the best varieties of apples pears, plums, and other fruits that New England then afforded, should hold the most prominent place on his farm, and earnestly hoped that other farmers would adopt the same system and receive in return not only large remuneration for labor and expenses but also the comfort and luxury of improved health With these objects in view, he improved the first practicable opportunity to plant a large nursery with all attainable varieties of good fruit, and used his best efforts to induce other farmers to receive the benefits that would result from such judicious management. His own operations were successful and his influence on others though slow, was sure of the right result

Mr Goodale stood alone in this enterprise for a few years, though a small number of judicious men pretty soon seized with avidity upon the project, and profited by it more largely than by every other part of their farming

To this single individual, more than to all other persons, do the inhabitants of the county of Penobscot owe the comfort of having excellent fruit on their own homesteads, and the value of their farms much increased, by the trees which bring that comfort and ornament

Esquire Goodale held the office of County Commissioner through many years, and discharged its various duties with marked ability and perfect integrity

The crowning excellence of Mr Goodale remains to be told Soon after removing to Orrington, he frequently attended on the preaching of Rev Enoch Mudge, who then was the truly worthy Methodist clergyman of that town because he chose that his whole deportment should conform to that which other citizens deemed to be commendable But the gospel undermined the *foundation* of his infidelity and overturned the fabric He became a *Christian* in its broadest sense, and without delay burnt up the whole of his infidel library, lest it might ruin or injure others

His whole remaining life has been an able practical comment upon the incomparable value of the Christian religion

CHRISTIAN DAYS AND THOUGHTS —By Rev Ephraim Peabody D D Second Edition Boston Crosby Nichols & Co, 1858

This is a most beautiful edition of Dr Peabody's Thoughts Associated as they are with the sacred days of the Church—and abounding in suggestions and ideas of the most comforting and strengthening character to all christian minds the first edition of the work has been rapidly called for and exhausted, and the publishers now present another edition in a most beautiful and appropriate style of typography and binding In all respects it is the most perfect book of the class that has ever appeared upon our table, or that we have seen issued from any publication house The typography is in a pure and beautiful antique style, the paper excellent, and the binding firm handsome and unique There is a fine portrait of Dr Peabody as a frontispiece

A TRAVELER'S NAME An Englishman had hired a smart traveling servant, and arriving at an inn one evening knowing well the stringency of police regulations in Austria, where he was he called for the usual register of travelers, that he might duly describe himself therein His servant replied that he had anticipated his wishes and had registered him in full form as an "English gentleman of independent property" "But how have you put down my name? I have not told it you"

"I can't exactly pronounce it, sire, but I copied it faithfully from your portmanteau" — "But it is not there—bring me the book" What was his amazement at finding, instead of a very plain English name of two syllables, the following portentous entry of himself—"Monsieur Warrantedsolidleather"

A TRAGEDY AT THE SOUTH —A terrible tragedy was recently enacted in Richmond County, N C A negro man, belonging to Britain Chapel armed with an axe, entered his master's house, and killed his master and mistress, and so dreadfully mangled two of his children that they cannot survive Dr Edwin was sent for and while attending to the mangled children, was attacked by the negro with [illegible] with which the doctor [illegible] his instrument [illegible]

THE 'WHITE SLAVE' NO FICTION.—*A young white woman chased by the Kentucky Hunters—her escape* —The Cincinnati Gazette of Monday relates the following which proves the oft repeated apothegm

"Truth is strange—stranger than fiction"

About the first of January there arrived at the depot of the U G, R. R, in this city, a woman, quite handsome and perfectly white, who came from Lexington, Ky She told a story, the truth of which was subsequently ascertained by the agents of the U G R R Her father was her first master and resided in the interior of Kentucky As we have said, the negro element was completely bleached out She was, consequently treated as a free person, and was told by her father that in his will he had made provision for her manumission Her father died, and his will was, as is supposed, destroyed by some of the heirs, as it contemplated a disposition of the property not acceptable to them The girl was sold with the estate She was bought by a man who treated her so badly that she attempted to run away She was caught brought back, and beaten so that she still bears the mark of the whip upon her back. Her second attempt to escape was more successful She reached Lexington, and there took the cars for Covington

She was so Caucasian in appearance as to excite no suspicion and reached Cincinnati safely Here she found friends, occupation and a home Falling under revival influence she became connected with one of the churches here, and was constant in her attendance at meetings

Her master became in some way acquainted with her place of residence, and a few weeks since made an attempt to capture her The son of her father, the son of her last owner and one or two others, came to the city in pursuit Hearing of her religious propensities these young men became devout (would they had remained so!) attended prayer meetings listened to sermons, &c, and attracted the notice of some zealous brethren, who thought they saw in the young men the beginnings of the religious life

So matters went on till one Sunday night they saw the white slave at church When she left for home in company with some two or three female friends, they followed them and attempted to arrest her She, acting on the Apostle's injunction, "If thou mayest be free use it rather" resisted the attempts at a capture She had pluck as well as religion as the Kentuckians found While they were squabbling two policemen came up and remonstrated with the young men for abusing the young ladies The girl slipped off leaving the police and the Kentuckians to settle matters The next day she started for Canada, via the U G R R, and as she says in a letter received here a day or two ago arrived safely at —— hearing nothing of the pursuers on the way is well, and has met with kind friends

We regret to say that the young Kentucky gentlemen have dropped church going, and if we may believe one of the girl's companions on the night of the attempted arrest, made use of certain phrases which, though often heard in church are decidedly improper when used by laymen

COL BENTON'S DEATH BED OPINIONS —The Tribune contains a letter from Francis P Blair, in reply to Cary Jones's statement, touching the dying opinion of Col Benton Mr Blair reiterates his former account of his interview with Mr Benton, and proceeds to show, from evidence in Col Benton's own handwriting that he was opposed to Mr Buchanan and his administration, that he was opposed to the settlement of the Territorial question relating to slavery in the mode proposed by Mr Buchanan but, on the contrary, was resolved on the agitation of the subject, until the opinion of the Supreme Court opening all the Territories to the introduction of slavery was rendered abortive by the action of Congress in the maintenance of the political rights of the people

Mr Blair publishes a series of resolutions, which Mr Benton gave to Francis Blair, Jr, for submission to the Republican members of Congress The resolutions refer to the Dred Scott decision of the Supreme Court denouncing that decision as extra judicial, illegal and void and also in derogation of the powers of Congress, and that consequently, it had become the duty of Congress to vindicate its rights by asserting its full authority to legislate upon slavery in territories, and to declare its total disregard to that decision

The preamble was intended by Col. Benton to be affixed to the act for the organization of Arizona It refers to the fact that, by virtue of the laws of Mexico, that Territory is now free from slavery, and provides that, notwithstanding the Dred Scott decision, it shall remain so

Mr Blair also refers to a paper given by Mr Benton to Col Fremont, at their last interview in which he sets forth his reasons for abandoning Mr Buchanan, and also for reversing his opinion with regard to Col Fremont

At Damascus in the very heart of a city given to Mohammedanism, at one gate of the Great Mosque is a spacious ancient door way, over which is a cross, with the following verse, in good Greek letters

"Thy kingdom, O Christ, is an everlasting kingdom, and thy domain endureth throughout all generations"

GRASSES —Over 4000 varieties have already been noticed by naturalists Over 200 varieties have been cultivated in England A dozen sorts cover nineteen twentieths of all the meadow lands from Maine to Texas — Herdsgrass, whose other name is Timothy, (derived from a man by the name of Timothy Herd) a hundred and fifty years ago, was a wild plant, growing only in Maine

The Washington Union (government organ) recently denied that the administration was in special need of money and said that a loan would *not* be called during the present session We now perceive the government asks for fifteen millions of dollars to keep the wheels going The organ is not ground correctly—it needs screwing up —*New Bedford Mercury*

The highest waterfall in the world is in the Sandwich Islands, and is stated to be between four and five thousand feet high The stream on which the fall occurs runs among the peaks of one of the highest mountains—so high that the water *actually never reaches the bottom*—so great is the distance that the water is converted into mists, and ascends to the clouds again

THREE DAYS
LATER FROM EUROPE.

ARRIVAL OF THE

AFRICA
AT NEW YORK.

New York, 27th

The Africa, from Liverpool the 15th inst., arrived this morning

The British House of Lords had rejected the resolution censuring the Ministry, by 9 majority. The debate was still pending in the House of Commons

British government has granted a steamer as a tender to the frigate Niagara, in place of the Susquehannah

Experiments with the Hughes telegraph machine through the cable, demonstrate the superiority of these instruments

It is rumored that Lord Stanley will succeed Ellenborough as President of the Board of Control and Bulwer Lytton take the Colonial office

The Bombay mail of April 24, has been telegraphed The news is unimportant The Commander in Chief was about starting for Rohilcund The bulk of the army would remain at Lucknow Trade was inactive and money tight at Bombay

The Plenipotentiaries were assembling in Paris The Conferences will open about May [illegible] The Spanish Ministry had not yet reorganized

The Austrian fortifications in the Italian provinces were progressing with great energy

The dispute between Turkey and Montenegro was claiming attention, and England and France had resolved to send a commission for the purpose of effecting a settlement

France.

The London Times says, M De Sartiges French Minister at Washington, is about to visit France on leave of absence The French Consul General of N Y, will act as Charge during his absence

India.

Bareilly and Calpee are still in the hands of the enemy The rebels were also in force at [illegible]chpore and New Benares Gen Rose remained at Hous, and it was reported that large bodies of the enemy were advancing upon him The Kotah garrison 5000 strong were large but destitute of artillery The Punjaub and Scinde remained quiet. The Nepaul frontier was threatened by the rebels

Liverpool Markets May 15 —Messrs Richardson Spence & Co report a continued dullness in the grain trade Flour quite neglected and nominal at former prices Wheat very dull and obtainable at easier rates. Corn very quiet and offered at 6d reduction Beef selling in retail at previous rates Pork steady Sugars opened active, but closed quiet and previous rates scarcely maintained Molasses in good demand at improving prices Coffee steady Tea inactive but unchanged

CONGRESSIONAL.

Washington, 27th

SENATE —Mr Slidell of La, introduced a bill to grant a pension to the widow of Gen Persifer Smith—laid over

The river and harbor bill was then brought up

Mr Seward gave notice that he would introduce a resolution extending the session until June 21st, to permit the business to be done—especially with reference to the homestead bill and harbor improvement

A committee to confer with the House on the legislative and judicial appropriation bill was then appointed

The House bill extending the land laws to the East Cascade Mountains was passed

Mr Collamer introduced a resolution asking the Secy of the Navy to furnish information of the cost, efficiency and location of every vessel in the navy—agreed to

On the homestead bill coming up as special order Mr Clingman moved to postpone its further consideration till January next After some debate it was postponed till that time—30 against 21

Mr Johnson of Tenn, having voted aye, moved one of order, which motion comes up to morrow

Mr Seward called up the bill for improvement of Sheboygan harbor

Mr Pugh of Ohio offered an amendment embracing all the harbors for which appropriations are asked amounting to $600 000

A number of amendments were offered, when Mr Bigler moved to strike appropriation $110 000 for the improvement of Red river

This gave rise to a lengthened discussion—pending which the Senate adjourned

HOUSE —The House acted on the amendments to the Naval Appropriation Bill, nonconcurred in the same, and then passed it by 110 against 75

The House also passed the bill making an appropriation of $4 000 000 for expenses of collecting the revenue

Mr Stanton of Ohio, reported from the tariff investigating Committee The report was ordered to be printed

Messrs Moore and Purviance concur fully with the report of the Committee, excepting the part relative to the action of the House in releasing Mr Wolcott The majority say that if he had not been released, the Committee would have obtained additional evidence Mr Purviance thinks not, and is of the opinion that having participated in the passage of the act which punishes contumacious witnesses, and especially after Mr Wolcott had been in prison under the order of the House from Feb. 16 to March 22, it seemed to him that to withhold Mr Wolcott from trial would be an arbitrary refusal to test the very law he assisted to pass and besides would operate as a censure upon the action of the House

Mr Clay of Ky asked but failed to obtain unanimous consent to introduce a bill to restrain and repress outrages on the flag and citizens of the United States

The House went into Committee on the Post Office Appropriation Bill but it was soon laid aside and the Army Bill taken up

Mr Sherman of Ohio addressed the House

Mr Letcher of Va, was glad that the public expenditures were attracting some degree of attention and that the gentleman from Ohio had invited the scrutiny so much demanded. Why did he not press his reforms in the last Congress, when political parties in the House were nearly balanced so as to bring about a practical result: If he (Letcher) recollected aright he had voted for an ocean telegraph outside the limits of the United States.

Mr Sherman said he would vote for it again

Mr Letcher replied, it was not recommended by the President. He ventured to say that Mr Sherman voted to pay the army, and for giving Gen Scott, as Lieut General, greatly increased pay

Mr Sherman remarked that he was not here at that time, but if he had been he would have voted for it

Mr Letcher did not complain of Mr Sherman's votes, but because he had undertaken to have others executed for what he had been doing himself.

Mr Sherman said he wanted to reform his own as well as the other side of the House

Mr Letcher was glad to hear it His present business was with Mr Sherman He began with the chief sinner first, and hoped the smaller ones would follow He said that the gentleman from Ohio could not lay his finger on a recommendation of the Committee on Ways and Means, not warranted by law He also defended the President's official conduct.

Mr Lelter of Ohio interposing said he would impeach the President under a resolution in the Cincinnati platform, declaring for retrenchment and the extinction of the public debt

Mr Seward of Ga said he belonged to the Democratic party, but complained of the administration for its do-nothing policy

Several amendments were made, but were ruled out of order The bill was then laid aside and the Committee took up that making appropriations for the Ocean Mail Service

Mr J G Jones said he was authorized to state that the administration desires Congress to take up the whole subject of the foreign Mail Service and put it on a self supporting basis.

Mr Sandidge of La offered an amendment,—Debate on the amendment was ruled out of order, and the bill above named reported to the House for definite action, when the House adjourned.

From Washington.

Washington, 27th

The report that arrangements have been perfected for a semi monthly mail from New Orleans to San Francisco, via the Isthmus of Tehauntepec, originated in the fact that the terms were yesterday agreed upon, but it appears that an unsuspected difficulty arose, which had the effect to delay the consummation of the contract

The House Committee on the Judiciary made a report to day on that branch of the President's Message recommending the passage of a Bankrupt Law, to include banks in the same They take the ground that Congress has no power to pass such a law, for the reason that its exercise would be an infringement of the rights of the States that even if it were within the undoubted competency of Congress it would be productive of no advantage whatever, while it would, beyond all question, give rise to many very great and permanent evils growing out of the present system of banking.

From Kansas.

St Louis, 27th

The Republican's Westport, Kansas correspondent gives the following news —Capt. Hamilton and some twenty others who had been driven from Lynn Co, by Montgomery's men, after placing their families in safety in Missouri determined to return to the territory to look after and protect their property — On approaching Chouteau's trading post on the 19th, the party noticed that the people of the place had mistaken them for Montgomery's men, and came out to meet them when they were all taken prisoners

From one of the prisoners Capt Hamilton learned that a number of the robbers were stationed at Snyder's, a fortified house a short distance from Chouteau's post Under promise that they would return home the prisoners were disarmed and released Capt Hamilton's party then proceeded to Snyder's house which was situated in a ravine, and flanked by rock walls Dividing into two parties, they approached it from opposite directions, and hearing a gun fired on the side of the hill, they charged on the spot, where they found the men they had just released who had partially armed themselves at a neighboring house and taken a short cut for Snyder's A fight ensued, resulting in the death of ten of the robbers, amongst whom was Capt Reed, one of Montgomery's board of commissioners before whom all prisoners are tried In a few moments the main force in Snyder's house rushed to the woods and escaped

This correspondent states that not a Missourian took part in the affair, but that all were of Hamilton's party—men who had been driven out of the country a few days before.

SMITH'S ELECTRIC OIL.

This preparation which has made such speedy cures in Philadelphia and many other places, begins to attract almost universal attention, and elicit comments of every kind. Some say it is IMAGINATION Of course they assign any thing but the real and philosophical reason —Inflammatory Rheumatism Gout, Palsy Burns, Piles, Neuralgia Salt Rheum Erysipelas Scaly Eruptions of the Skin Womb Complaints Abscesses Croup Asthma, Indolent Swellings Stiff Joints Felons Wounds, and Sprains Broken Breast, Hemorrhage Sore Throat Frosted Limbs Acute Nervous Pains Tooth Ache and Head ache Deafness &c and Teething children are not often cured in from 5 minutes to a few days simply by the IMAGINATION Not any have used this oil without deriving some special benefit within an hour, and many are they who have been perfectly cured of the diseases very speedily

DR. J. H. ROBINSON
AMONG THE TRAPPERS!

NICK WHIFFLES;
or,
The Trapper Guide,
A TALE OF THE NORTH-WEST
By Dr J. H. ROBINSON,
Author of "Buck Bison," "Pioneers of Kentucky," "Marion's Brigade," "Half Witted Nat" etc, etc
HIS LAST AND BEST STORY
For sale by all News Dealers
IN THE UNITED STATES & BRITISH PROVINCES

This is a story descriptive of Wild and Startling Adventure and of the primitive modes of life among the Indians and Trappers of the Great Northwestern Territory This grand and extensive portion of the American Continent has been hitherto almost as a "sealed book" to the civilized world In those regions a territory nearly as large as Europe has long been looked in the monopoly of the great Hudson's Bay Company, and its rival, the Northwestern Co Private enterprise has not penetrated its solitudes and of those whose duties have called them there, and who have participated in the treasures of this unknown land, none have hitherto been willing to expose its mysteries, or have possessed the power of portraying the perilous and strange vicissitudes through which they have passed Here we find classes of men, distinct, indigenous to the soil, or moulded by its peculiarities perfectly original in character, utterly unlike in manners and habits to any similar order in other lands The Indian, in all his natural wildness, the half-breed, a strange mixture of daring, simplicity and cunning, the Trapper who spurns the restraints of civilization and recognizes no law but the fierce impulse of his own will the European Exile or Outcast the Outlaw of Canada and the United States, who seek in the trackless wilderness a refuge from the outraged laws of civilized life

Nor is this rude society denied the genial influences and humanizing effects of woman's presence Impelled by affection hundreds of devoted women have accompanied these adventurous outcasts to this wild retreat while the population the offspring of mixed races contains thousands of half breed females, in whom the passions the graces and the virtues of the softer sex are blended with the artlessness of nature, and the wild freedom of a life that knows no conventionalities

In these reckless men the great rival Companies find willing agents and unscrupulous tools, once engaged in their service, but few ever return or care to return to society Among these people are enacted deeds of rude chivalry as brilliant and daring as any recorded of the chivalric ages And among them also are committed tragedies and crimes of wild passion, that can find no parallel in history, or scarcely in fiction — Living absolutely without law, and without protection every man is perforce, a law unto himself and the rifle and the tomahawk are the only arbiters

Here is a glorious field for a novelist whose experience and talent fit him for the task of depicting its events Such a man is the author of NICK WHIFFLES, and in this story we venture to say that he has surpassed every former effort For fidelity to nature for graphic and dramatic force of style, and for keen delineation of character, there are few stories in the language that can compare with "NICK WHIFFLES"— The author brings before the reader in life like action the hardy Adventurers and the simple Natives of this magnificent region The crime the wrongs the misfortunes and the unsophisticated virtues of the life he depicts alternately arouse our indignation and awaken our sympathy At one time we are rapt in admiration of the reckless courage and romantic daring so vividly painted by this skilful writer at another we are melted to tears by the exquisite pathos with which some of the noblest traits of human nature are brought before us, and again we are convulsed with laughter by humorous descriptions of eccentric and original characters—the unique offspring of a free, lawless, and untrammeled mode of existence a phase of human nature hitherto unknown for want of a historian

Those who have read the previous productions from the pen of Dr Robinson do not require to be told that there is no man now living who can compete with him in a story of this character — He stands unrivalled in this class of literature — As one of the leading contributors for the *Flag of our Union* and other leading publications of the day, for a number of years, he has acquired a popularity that places him in the front rank of American story writers

Those who desire to secure this great Story by Dr ROBINSON, complete, should send in their orders at once, to enable us to make arrangements to supply them Wherever there is a News Agent order through him We only desire to send the WEEKLY by mail to out of the way places, where there is no News Dealer When sent by mail, the terms are $2 a year or two copies for $3 Six month subscriptions $1 All orders by mail must be addressed to

THE LUXURY AND PROFIT OF

HONEY MAKING.

☞ Torrey's Bee Hive.

THE subscriber having purchased the right of making and selling *Davis Patent Bee Hive* for the Counties of Penobscot Lincoln and Sagadahoc which has been received with so much favor and taken the first premiums wherever exhibited has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals

This Bee Hive thus improved is admitted by persons acquainted with the honey making business to be superior to every thing yet invented for the purpose It covers all the requisitions for the profitable maintenance of the apiary by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms and generally for the health and comfort of the workers

The boxes used in this Hive for storing honey are the best adapted in the size for the market, holding from three to six pounds each

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights

American Safety Paper Manufacturing Company of N. Y.

Capital $500,000.

A NICHOLAS President Office, 70 Wall st

A Perfect Security against all manner of Fraud on Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits Erasures by Acids or Alterations

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America invented and patented in England by HENRY GLYNN a celebrated chemist and officer in the British army It is hardly necessary to say that the Paper is recommended by Mr Kent Assayer of the U S Mint, Mr Lyman of the New York Clearing House and Meade Brothers extensive and skillful photographers 233 Broadway N Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper Below is our list of prices

Bank Checks	35 cts per lb
Bank Bills	$18 for 1000 sheets
Bills of Exchange	$25 for 1 000 sheets
Promissory Notes	40 cts per lb
Sight and Time Drafts	$20 for 1000 sheets
Insurance Policies	40 cts per lb
Railroad Stocks and Bonds	40 cts per lb
Bank and State Stocks	40 cts per lb
Bonds and Mortgages	40 cts per lb
Wills and Deeds	40 cts per lb

For wrapping books and other fine articles it is excellent as it proves to moths 40 cts a lb

Full Indentures and Agreements 40 cts a lb

All State and County Records should always be printed or written on this paper as the chemicals inserted in the pulp not only prevent erasure or transfer but makes it lasting as time

For southern climates it is excellent and much superior to any other as the heat or stress of the climate does not destroy it—the properties inserted in the pulp being a preventive In all the Southern States Cuba the West Indies and the Central American States no public records can be kept over 20 years written on the ordinary paper while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time It is also proof against moths, rats and other vermin which feast on and destroy all other paper now in use

The Company have now in operation Mills in Morris County N J of about 300 horse power and are able to fill all orders for Paper at the shortest notice

All orders for the Paper must be addressed to A NICHOLAS President of the Company, No 70 Wall street New York

American & Foreign Patents.

R. H. EDDY,
Solicitor of Patents,
(Late Agent of U S Patent Office, Washington under Act of 1837)
76 State Street opposite Kilby st,
BOSTON

AFTER an extensive practice of upwards of twenty years continues to secure Patents in the United States also in Great Britain France and other foreign countries Caveats Specifications Assignments and all Papers or Drawings for Patents executed on liberal terms and with despatch Researches made into American or Foreign works to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same—Copies of the claims of any Patent furnished by remitting One Dollar Assignments recorded at Washington

This Agency is not only the largest in New England but through it inventors have advantages for securing Patents or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY he would add that he has abundant reason to believe and can prove that at no other office of the kind are the charges for professional services so moderate The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents These besides his extensive library of legal and mechanical works and full accounts of Patents granted in the United States and Europe render him able beyond question to offer superior facilities for obtaining patents

All necessity of a journey to Washington to procure a patent and the usual great delay there, are here saved inventors

TESTIMONIALS

During the time I occupied the office of Commissioner of Patents R H Eddy, Esq of Boston did business at the Patent Office as Solicitor for procuring patents—There were few, if any persons acting in that capacity who had so much business before the Patent Office and there were none who conducted it with more skill fidelity and success I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States and I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office

EDMUND BURKE
Late Commissioner of Patents

[From the present Commissioner of Patents]

Aug 27 1855—During the time I have held the office of Commissioner of Patents R H Eddy Esq of Boston has been extensively engaged in the transaction of business with the Office as a Solicitor He is thoroughly acquainted with the law and the rules of practice of the office I regard him as one of the most capable and successful practitioners with whom I have had official intercourse

LINCOLN'S WATER PROOF BLACKING, AND LEATHER PRESERVATIVE

Keep your Feet dry and you will seldom need a Physician

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard stiff and cracks but when it is water proof this is remedied By the application of this preservative It remains soft and entirely impervious to water

After being engaged for 25 years in the manufacture of Leather in all its branches and being often troubled with wet feet myself I was led to experimenting on different compositions, and found it easy to make it water proof but at the same time extremely injurious to the leather At last by a chemical process I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned It will not only make leather water proof, but it likewise softens the leather and it will

Positively wear twice as long.

I have now used it for three years and a large part of that time have worked in a wet Tannery with my boots constantly in water and have not had my feet wet during that time I can therefore in all confidence recommend it to the public as the best article in the market

It is certain to cure you as that you are conscious of your own existence and if you are suffering after reading this pamphlet you must attach your leading a miserable existence to your own carelessness for if any of the symptoms laid down in the pamphlet are visible, or felt you need no longer doubt but become satisfied that Worms are the cause of all your suffering To you then, I confidently recommend the use of my

WORM SYRUP.

From the knowledge of the powerful vegetable ingredients of which it is composed, together with the numerous uninvited Testimonials I am daily receiving from families and others who have been restored to health by a timely use of the

Vegetable Worm Syrup.

"Mother, I cannot take it !"

How often is this said by the many children who are drugged with Castor Oil Turpentine and such like nauseous doses by their parents for WORMS simply because they are led by the ignorant to believe they are CURE ALLS

But that difficulty is now obviated by the use of my

WORM SYRUP,

which is compounded in such a manner that I have never known a single case in which they have

REFUSED TO TAKE IT!

as it is made in the form of a Syrup and palatable to the taste of the most fastidious and children, rather than refuse to take it have actually been known to cry for it so parents will find no difficulty in getting any child to take it—and yet while it is so pleasant to the taste it is the

Most Certain and Effectual Medicine EVER DISCOVERED

and can be administered to the most *tender infant* with decided benefit.

Where BOWEL COMPLAINTS and DIARRHŒA have made them weak and debilitated,

ONE SINGLE DOSE

destroys the venom from the system, many times of the poor suffering children

Ayer's Pills

Are particularly adapted to derangements of the digestive apparatus, and diseases arising from impurity of the blood. A large part of all the complaints that afflict mankind originate in one of these, and consequently these Pills are found to cure many varieties of disease.

Subjoined are the statements from some eminent physicians, of their effects in their practice.

AS A FAMILY PHYSIC

From Dr E W Cartwright, of New Orleans

"Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease."
